

## MariCal promtes Chilean GM

Published - November 24, 2004

**Editorial .com Bergen, Norway:** MariCal Inc., parent company of CienciaMar Ltda. announced that Eduardo Aguilera, General Manager of CienciaMar, has been promoted to the position of Vice President of Aquatic Operations of the American marine sciences company.

“We are extremely pleased with the results that Eduardo and his team at CienciaMar have attained introducing the SuperSmolt technology to the Chilean salmon industry”, commented H. William Harris M.D., Ph.D., Co-Founder and CEO of MariCal in a press release. “Our decision to expand Eduardo’s role in the company reflects our desire to take advantage of Eduardo’s experience and expertise as we continue to expand our business worldwide.”

MariCal is the developer of the SuperSmolt process, which creates an enriched aquatic and nutritional environment to allow a smolt’s natural process to fully prepare salmon and trout to enter seawater while remaining in freshwater.
